My guess is that it depends on the device. The recorder works fine on my PC, as well as on my..Q: my question does not belong to this site? I found this website and i was checking out the list of questions that is posted to this site. I came across a question that i think is of design experience. When i was submitting my question, the system displayed this error message on the side of the page. "This question is off-topic. It is not about programming or development and is not about the technology behind the project. This question belongs on another site on the Stack Exchange network.." I was wondering if you could have some insight. Thank you! A: As you noticed, this is an error that is displayed in the case of questions tagged with catalina as catalina. So if you tag a question with catalina (without having enough rep on SO) the system will ignore that tag and start looking for a catalina tag in the question. Q: How to get flash to play a video without stopping after 1 second I am developing a flash game where the movie clips play a video, but i want that after 1 second it stops the video and plays a new video. It is like a timer where the video has to play till the player stops it. Also is there a way for the player to pause and resume the video? A: It might be a better option to just use a timer object, where each second you will play the video. var vid:Video = new Video; vid.addEventListener(Event.ENTER_FRAME, playVideo 1cb139a0ed
