#### What's New In PowerPuff Girls Cursor?

I love the unique concept of The Powerpuff Girls cartoon. It seems the girls are all about magic. The wonderful cursor theme called "Cursor" is based on the series. This theme could be applied to the desktop theme of any OS. It will attract users to the start page immediately. It's very friendly and easy to use. It comes with two color variants: one of them is dark and another is light. Due to the shortage of the number of users, this theme is still under beta test. Review: &nbsp;
