MEGA Download Birds Of Steel Pc 11Q: Calculate the total price based on total coins sold I have the following info Customer_id, Product_id, Quantity I'm trying to have a query that'll sum the quantity for each customer based on Product_id, so it'd return something like:

Customer_id, Product_id, Quantity I thought this would work, but it doesn't. `select customer.cust_id, product.prod_id,`

`sum(product.quantity) as quantity from product, customer where product.cust_id = customer.cust_id and product.prod_id = customer.prod_id group by product.prod_id, customer.cust_id` What should I be doing instead? A: Your query is almost there, just a small correction: `select cust_id, prod_id, sum(quantity) as quantity from product, customer where prod_id = cust_id group by cust_id, prod_id`

However, from the given example it seems that you want to sum quantity for each prod_id and cust_id, so, instead of sum you can use sum: `select cust_id, prod_id, sum(quantity) as quantity from product, customer where prod_id = cust_id group by cust_id, prod_id` Product

description: Ideal for use with the new Continental Recoil-Shock Systems, the ShockTrain SW-Series/SR-Series is an extremely robust Shock Rack for use in medium and heavy duty trucks. The ShockTrain replaces old-school VAC Systems with a patented, modern DC power supply which runs at 120V. The system can be easily modified for use with Recoil-Shock Systems. It is designed to be able to accept almost any ShockTube or ShockWand, some of the most popular brands are listed below: * PrimeFlex - Big Apple * Aeromoose - RTK * Sonic Technology - Sonic Slam * ShockWave - ShockWave * Speedlite - Single Piston * Silver Pipe - Silverpipe * Pro Shock - 4 Piston * Pro Shock - 8 Piston Features: •
