What's new:

Welcome to Fantasy Grounds Online! I purchased this pack from monsterhearts on steam early in the year. It includes players, GM's and scenery for one of my fictional game settings. I will provide all the background information for this game world and its people in a series of articles. They are an extremely easy and cheap way to supply your adventure. Each of the Fantasy Grounds pack comes with GM tips on how to work with this pack, in game reference, and a guide. Here is the backstory to this world. One of the things that I enjoyed in any setting is the history that is presented. In Blue Dragons this world has existed since the beginning of time. There was a time where the Blue Dragon golems were created. The city was confined to one location at first, but as it grew the containment field was added to limit the size and growth of the population. This caused the ancestors of the Blue Dragon Clan to break the bounds of their world and migrate, this caused a war with the next clan, ending with a power struggle. As with many alien species of fantasy the Blue Dragon Gods had no resemblance to our own alien Gods. They did not have any true myths, which is funny because you can see them reflecting in the imagery of World of Warcraft. The entire world is divided into 3 layers, the interior of the dome, the emptiness of space and above. The Blue Dragon gods (god hierarchy): The Blue Dragon city on blue planets. The five great gods are known as the five male power sources of the gods. The leader of the Blue Dragon Gods is known as "The Mayahol". He oversees all the Blue Dragon laws and there are seven laws. 1. Giantstone (highly advanced technology. It might be closer to magic than technology but is in no way normal to our universe) 2. Unstable Orbs- large fusion reactors that are unstable and constantly create power surges 3. During the cycle of seven blue moons each year fire dragons are released. The fire dragons are controlled by the most powerful dragon lord 4. Astral Projections- these are the deities within the city. Just like Celestials they connect to the Astral Realm and use it to send visions to their people or demons among humans. 5. Lightning- since many of the Blue Dragon ancestors are from the east it is heavily influenced by the mongoose lightning element. 6. Elight- introduced to power the cities. They
