MySQL: Match min of multiple rows I have a table named
"product" in which there are product_id, product_name and
product_price columns. Product is basically a table where
products are stored. The only thing is that I want to see the
product that has the lowest price (in this case, that is \$6.45) as
the primary id. Is there any way to compare the lowest price of
every single product that I have stored in this table and get the
product with the lowest price? A: Take a look here. UPDATE
SELECT min_price FROM (SELECT `product_price` FROM
`product` WHERE `product_name` ='my_product') AS
