2012/2012x64 is the only malware remover which offers the advanced "Home Page Hijack Protection" to prevent your home page from being changed. The paid version also includes a "Quarantine Log" which is a log to record the location of the quarantined files after you remove them. Virus Total and AV Comparatives VirusTotal scores never lie. A score of 0.60-0.80 means there are NO real infections. The program really does work! See the VirusTotal Page for more info: VirusTotal does a lot more than give you a virus total score. It also allows you to keep a secure offsite backup of all your files and shows you what files are missing. It provides a history of your downloads. It cleans old registry files, trailing files, temporary files and system files. Most other "anti-malware" programs don't clean your system registry files - they are the most important files on your PC! Many other "anti-malware" programs will not clean any files if they can't determine if a program has been installed. W8Soft Ad-Spy Remover Activation Code will find programs that haven't been uninstalled. W8Soft is very picky and does not remove files that are not viruses. And does not remove actual viruses (like CAV.DLL) itself! W8Soft Ad-Spy Remover Crack Mac Features: Prevents spyware from changing your Internet Home Page Home Page Hijack Protection prevents spyware programs from changing your internet Home Page (Starts at the same time as your computer) Does not stop or slow down your PC!
