MovieHD.Monisha Devi.1. Field of the Invention The present invention relates to an image display apparatus having a function of displaying a still image or a moving image. 2. Description of the Related Art A car navigation system is one of navigation systems. The car navigation system detects a travel position of a vehicle using a GPS, a gyroscope, a speed sensor, or the like, and displays a guidance map of a route from a departure point to a destination point on the basis of information provided by the car navigation system, thus guiding the vehicle along the route. A passenger can take a desired route during the vehicle travel. A car navigation system that can perform recording and playback of images while the vehicle is in motion (referred to as an “image display system” in the following) is also available. In such an image display system, recorded images can be repeatedly played back. 6d1f23a050
