It should start with a word, followed by a space and a variable number of characters, followed by a comma and a space and it should end with a comma and a space. So, for example: foo bar baz or foobarbaz I've come across this: `^\w+\s*([a-zA-Z0-9,]*)\s*,\s*$` But it doesn't really work as I'd hoped. I would have expected the first letter to be a capital, followed by a series of lower case letters, a space, then a series of digits, maybe another space, and c6a93da74d
