Make sure to sanitize the image before insertion. It is best to use single quotes. Also, \$picture should be a path, not just an arbitrary string. You can use realpath for that. \$path = realpath('/path/to/user/image.jpg'); \$query = "INSERT INTO user_picture (user_id, image) VALUES (\$user_id, '\$path')"; \$result = \$db->query(\$query); In this way, you don't need to sanitize the image. You can use it as is. [Drugs and the practice of medicine: prescriptions to be taken only to be sure, to the point or to do no harm?] Recent debates in France have focused on the use of new evidence-based approaches (EBA) in medical practices. Among others, the Antibiotiques, médicaments essentiels et autres catégories pharmaceutiques report raised concern for a weakening of the fundamental principles of evidence-based medicine (EBM). It has been highlighted that the truth, as a real (even if partial c6a93da74d
