awesome, the tricks were cool and the racing was exciting.

need for speed (2007) developed by ea canada (playstation) published by electronic arts gameplay racing/fps genre racing/action game modes multiplayersingle-player:conquest gameplaysplit-screen (2 players) (pc, ps) metacritic score 78 / 100 platform(s) pc(windows 2000, xp) july 18, 2007 (playstation 2, xbox 360) june 18, 2008 ps2(xbox 360) legacy platforms (windows 98, windows ce) backwards compatibility xbox 360 (xbox

revenge. also, the undercover has the best use of need for speed elements such as ghost mode, undercover mode, and gathering info. like need for speed hot pursuit 2010, the undercover is a feature-full racing game with racing and non-racing elements and racing isn't the major part of the game. but it has single player, hot pursuit and undercover modes, multiplayer (especially split screen) and a customizable car. 5ec8ef588b
