## Smash Bros Infinite 3.0 !EXCLUSIVE! Download Wii

I already have The Homebrew Channel on my Wii (v.1.0.8 IOS58 v24.32). Every time I try to download a 4GB.rar file it always loads in Adobe Reader. I have a problem downloading 4GB.rar. It always loads in Adobe Reader, which means I won't even be able to view it on a PC. Is there a way to download this 4GB.rar on Wii I found a solution to my problem. Don't know if this will be useful for everyone, but still... I found 4GB.rar in the "Downloads" folder on my Wii. Then, using the Wii U Browser, I found several other folders: "Downloads", "Maps" and "Images". Then I found the "Images" folder in the "Downloads" folder.
