The term gangsta refers to the predatory nature of pimps who will take their clients to a bar and then order them to get into a gang fight with their competition. The pimp's gambit requires escalating violence, often escalating 'rape', often escalating the level of degradation, all in order to build the pimp's ego. Gangsta not only creates a hierarchical space, it is imbued with an air of romance. In reality, pimping is a predatory and violent business. The woman who pays for a lap-dance and then may be kidnapped by another client is assaulted not because of the client but because of the pimp. And even if she does escape, she is charged with assault, not pimping. One might think that some of the increased psychological safety and confidence that learners might feel as a result of pimping may lead to better overall

learning. Certainly, this is true for some topics. In a survey of medical students, Chan, Dwyer, and colleagues found that 14% of students reported feeling more confident about a clinical topic after being pimped [7]. However, the survey results also found that learners can feel humiliated and that the power dynamic in some cases may be skewed. In addition, as the authors acknowledge, the more psychologically safe learners feel in their learning environment, the more likely they will feel confident in their learning. The lack of psychological safety in a learning environment can therefore lead to inappropriate learning behaviors as well as a lack of motivation [11].

The epilogue includes a couple of questions and offers an opportunity to hear 2Pac. The flow of things is pretty smooth and simple. After the first song, Kendrick stays silent for a couple of minutes, during which time he also pimp my gun full version appears to upload the album. The album is released to YouTube almost immediately and soon after iTunes and Beatport. If you havent already, watch the video for Step In The Arena (the cover to PWYH), and you might as well watch the

whole thing because it is short, sweet and
2Pac-esque.

In the case of the U.S., the association between pimp and race has a long history [13]. To see how historically, we must look to the work of the German philosopher Gottfried Wilhelm Leibniz. Leibniz (1646-1716) gave the following definition: 'A member of a pimp family is a person who voluntarily uses his property to prostitute his person so as to financially benefit another person, family or community, or all of these' [13]. By using the word pimp, Leibniz was analysing a very specific gender non-conforming power dynamic. In this power relationship, the economically and politically marginalized individual was not only prostituting their person for personal gain, but they also were not allowed to determine their own relationship with their partner. While providing an erotic, fetishised objectification of his patrons and strippers, Slickback is no pimp. He is not the non-profit operators of Pimp Without a Badge. Rather, he is the CEO of a prostitution service: the only difference is the legal ramifications. This disclaimer needs

to be made clear so as to avoid the confusion that surrounds most prostitution laws (e.g., commercial sex workers are not protected under de facto prostitution laws but under domestic violence laws). In all states that regulate prostitution, female sex workers are generally protected from violent men, yet I have never come across a pimp who is also a woman. The reason for this is simple: pimping is a position of power and often a position of violence. Gangsta refers to the simple fact that pimps target high-risk customers (police, drug-dealers, 'gate keepers', etc.)
